

Methodologies for Open Data

- Publish datasets in linked data quality
 - Get ready step-by-step for open data
 - Fully compatible with ODN procedures
 - Data integration techniques and tools
 - Available under CC BY license
-
- Publication methodologies [SAVE](#)
 - Methodology for publishing datasets as open data [DOWNLOAD](#)
 - Methodologies for deployment and usage of COMSODE publication platform (ODN), tools and data [SAVE](#)

Open Data Node ([ODN](#))

- Data management platform for open data and beyond
- Open source available [GitHub](#)
- Modular by integrating following components

[Unified Views](#)

- ETL - define, execute, monitor, debug, schedule, and share RDF data tasks
- designed for sustainable processes

Visualisation [tool LDVMI](#)

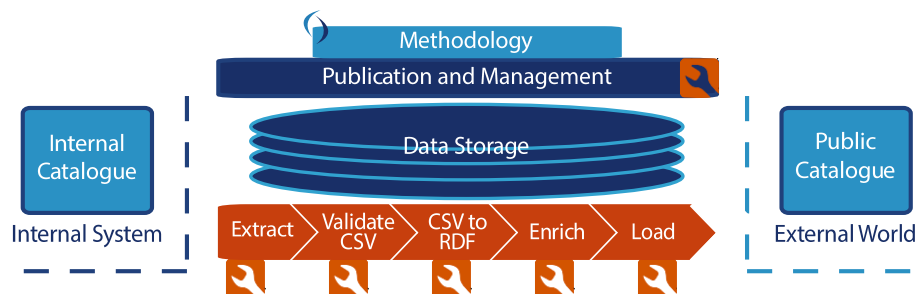

- consume Linked Data by combining your datasets with others
- developed and maintained by KSI

[Search by Strategy platform](#)

- rapid creation of specialized search APIs
- proprietary platform of Spinque

CKAN catalogue

- as internal and/or public catalogue

Services of the Consortium

- ODN and methodologies on demand
- Consulting, training, support
- H2020 and innovation projects
